

## Project Launch Instructions

1. Open the project in a development environment, such as Visual Studio Code.
2. In the terminal, navigate to the *src* folder of the project.
3. Run the command ***nodemon app.js***. If everything is set up correctly, you'll see the following output in the terminal:

```
PORT: 4000  
MONGO_URI: mongodb://localhost:27017/c2-internship  
Connected to MongoDB  
Server ready at: http://localhost:4000/
```

## Uputstvo za pokretanje projekta

1. Otvorite projekat u razvojnom okruženju, na primer Visual Studio Code.
2. U terminalu, pozicionirajte se u *src* folder projekta.
3. Pokrenite komandu ***nodemon app.js***. Ako je sve ispravno podešeno, u terminalu će se pojaviti sledeći ispis:

```
PORT: 4000  
MONGO_URI: mongodb://localhost:27017/c2-internship  
Connected to MongoDB  
Server ready at: http://localhost:4000/
```
